When it comes to maintaining a beautiful lawn, nothing makes the cut like a genuine Honda lawn mower. Behind every exclusive feature, you’ll find technology that crosses our entire product line. Technology born and tested on racetracks and roadways around the globe that continuously keeps us on the cutting edge.

From automobiles, race cars, motorcycles and all-terrain vehicles to marine engines, general-purpose engines and power equipment products, Honda is committed to designing products that meet or exceed the demands of our customers throughout the world. In fact, all Honda Lawn and Garden products offer a 50-state engine that meets California’s emission requirements. It’s no wonder Honda makes more engines than anyone else on earth!

Yes, throughout our history, Honda has been dedicated to technological and environmental innovation, and today is no different. After all, we have a legendary reputation to live up to. A reputation for unsurpassed quality, performance and reliability. A reputation worth considering the next time you’re in the market for a new lawn mower.
No matter which Honda lawn mower you choose, you'll get an exclusive feature no one else offers, The Twin Blade Advantage. In a microsecond, with each rotation of the blades, your lawn is cut, then cut again for a smooth, even surface. But that's just the beginning. Twin blades produce finer clippings, and that means when mulching, it's easier for valuable nutrients to go back onto your lawn to help feed it and keep it green. They also mean when bagging you'll be emptying a lot less often because the smaller clippings allow your bag to hold more.

A perfect cut, better lawn care and less work for you, that's the Twin Blade Advantage—only on Honda lawn mowers. When you also consider Honda's reliability, easy starting, quiet operation and fuel-efficiency, you've got an engineered piece of machinery that can serve you faithfully for years to come.
FEATURES AND ACCESSORIES

For some, yard work isn’t a chore, it’s a passion.

The enjoyment of caring for your lawn begins with an exceptional lawn mower. One where the reliable engine, durable deck, handlebars and controls have been carefully thought out then crafted to exacting standards for safety and ease of operation. Do we obsess about our lawn mowers? Yes, but that’s so you won’t have to.

One Engine for All

Honda certifies to all applicable CARB and EPA emission requirements by offering lawn mower engines with 50-state certification. The development of one engine for use in all 50 states continues to reflect Honda’s forward thinking with regard to emission regulations, air quality and the needs of our customers.

The Unique Honda Twin-Blade Systems

Only Honda lawn mowers feature twin-blade mowing systems. Both the Quadracut System® on the HRR models and the MicroCut System® on the HRX models provide four cutting surfaces for ultra fine clippings for better mulching and increased bag capacity. Grass is cut into tiny pieces that quickly decompose and add nutrients to your lawn.
FEAT U R E S  A N D  A C C E S S O R I E S

4-in-1 Versamow System™
With Clip Director®
Mulch, bag, rear discharge or leaf shred with no parts to lose and no tools required. (HRX only)

Height Adjustment System
Six or seven mowing height adjustments from 3/4” to 4” (depending on model) to suit your particular mowing needs.

Easy On/Off Grass Bag
Our grass bags make it easier than ever to empty, saving you time and effort.

Honda Decks
We offer two great mowing decks. HRS and HRR models feature our heavy-duty steel deck with up to seven height adjustments. HRX models feature our exclusive NeXite® mowing deck that is tough, resilient, easy to clean, and comes with a lifetime warranty.

Choice of Transmissions
With Honda, you can choose single speed, or our infinitely variable hydrostatic drive transmissions with Cruise Control or Adjustable Smart Drive®, which allow you to walk at your own pace while easily adjusting ground speed to match mowing conditions.

Choice of Transmissions
With Honda, you can choose single speed, or our infinitely variable hydrostatic drive transmissions with Cruise Control or Adjustable Smart Drive®, which allow you to walk at your own pace while easily adjusting ground speed to match mowing conditions.

Four in One

4-in-1 versatility is designed for your convenience.

Standard Rear Bag
Large capacity, easy on/off grass bag.

Exclusive Twin-Blade Systems
QuadraCut System® (HRR) and MicroCut System® (HRX) offer twin blades for precise cutting and finer mulching.

Discharge Chute
For mowing open areas when bagging or mulching is not desired. (Standard on HRR models. Optional on HRX models.)

Optional Leaf Shredder
Means less emptying of bags for spring and fall clean-up. (Not an option on all models.)
A great lineup, all engineered and built by Honda.

Every one of our HRS and HRR lawn mowers is 100% Honda from the ground up, which means you can depend on every part of these lawn mowers from the powerful, easy-starting engines to the exclusive Twin Blade Advantage of the Quadracut® mowing system. The legendary reliability you’ve learned to expect from Honda is built right in.

### Honda HRS & HRR Models

**Honda HRS & HRR Models**

**HRS MODELS**

- **Lightweight and efficient power.**
  - OHC/OHV ENGINE: Honda’s compact design reduces weight and makes the lawn mower easy to maneuver. It’s also easy to start. And the extremely efficient combustion of the OHC/OHV configuration means one engine certifies to emissions standards in all 50 states.

**HRR MODELS**

- **HRR216PDA**: Push type, 4-in-1 rear bagger/mulcher with optional discharge chute and leaf shredder
- **HRR216VKA**: Honda Adjustable Smart Drive® Variable Speed Transmission, Auto Choke, 4-in-1 rear bagger/mulcher with optional discharge chute and leaf shredder
- **HRR216VXA**: Honda Adjustable Smart Drive® Variable Speed Transmission, Roto-Stop®, 4-in-1 rear bagger/mulcher with optional discharge chute and leaf shredder

### Features & Options

- **Honda Adjustable Smart Drive® Variable Speed Transmission**
  - Easily control the speed when resting hands on the handlebars. (VKA & VXA only)

- **Honda Roto-Stop® Blade Brake Clutch**
  - Start and stop the blade with engine running. (VXA only)

- **Exclusive Honda Twin-Blade Quadracut System®**
  - Features innovative blades for superior mulching and bagging. (opt. for HRS)

- **Single Lever Height Adjustment for Rear Wheels**
  - Changing mowing heights is easy with this specially designed lever. (VXA only)

- **Easy Fold Quick Release Handle**
  - (VXA only)

- **9" Wheels for Easy Maneuverability**
  - (VXA only)

- **Large Easy-Off 2.4 Bushel Bag**
  - (HRR models only)

### All Available Standard & Optional Features:

- **Honda 4-stroke, single-cylinder OHC/OHV engine**
- **Single speed or infinitely variable transmissions**
- **Ball bearing-supported rear wheels**
- **22" mowing width**
- **Up to 7 mowing height adjustments**
- **Side discharge**
- **1-blade or 2-blade mulching**
- **Grass bag**
  - (Some models)
- **Optional leaf shredder**
  - (Some models)

(For specific model specifications and options, see back page.)
The ultimate lawn mowing machine.

With unmatched innovation and technology, the Honda HRX leads the way in lawn mower engineering. The HRX offers exclusive and advanced design features like the Versamow System™. It allows you to mulch, partially mulch, bag, rear discharge, shred leaves or any combination. There are no tools or attachments to fiddle with, and it’s the first lawn mower ever designed to simultaneously distribute clippings to both the bag and ground. The convenient Clip Director® control regulates how much is bagged or mulched. Engineered and built by Honda, there’s nothing else out there like the HRX.
### Features & Options

**Honda Roto-Stop**

If you need to stop the blade without shutting off the mower, Honda Roto-Stop does it in a flash. That way, you can empty the bag without having to restart the engine. (HXA & HMA only)

**4-in-1 Versamow System™ With Clip Director**

Mulch, bag, rear discharge or leaf shred with no parts to lose and no tools required.

**NeXite® Deck**

The HRX deck is constructed of advanced and extremely durable NeXite® material that does not dent, rust or corrode over time. Developed for Honda, NeXite® is exclusive on Honda lawn mowers.

**Cruise Control**

The HXA and HMA models offer Honda’s exclusive hydrostatic transmission that allows infinitely variable speed control so you can walk at your own pace and still get an excellent cut.

**Honda Adjustable Smart Drive® Variable Speed Transmission**

Easily control the speed when resting hands on the handlebars. (VKA only)

**Exclusive MicroCut® System**

Designed specifically to work with the new HRX deck. The Honda MicroCut twin-blade system uses four cutting surfaces that result in more efficient bagging and mulching. When bagging, homeowners can now mow between 40 to 50% farther before having to empty the bag.

**Honda’s Innovative Electric Start**

The HMA model features electric start with advanced battery technology. The Cyclon Battery is completely rechargeable and holds its charge for up to 300 starts.* Honda’s battery is designed to last for years and years, compared to other brands that require annual replacement. The charger is included with purchase.

---

**HRX Standard Features:**

- Honda 4-stroke, single-cylinder OHC/OHV engine
- Versamow System™ with Clip Director
- Durable NeXite® deck
- 22" mowing width
- Choice of Adjustable Smart Drive® or Cruise Control Variable Speed Transmission
- Rear discharge with no attachments
- 9" wheels
- All four wheels are ball bearing-supported
- Exclusive twin-blade MicroCut® system
- Choice of flywheel brake or Honda Roto-Stop® blade brake clutch
- 3-position, Quick Release adjustable handle
- Sealed control cables
- Large 2.5 bushel capacity grass bag
- 7 mowing heights: 3/4" to 4" (For specific model specifications and options, see back page.)

---

*Customer will need to completely charge battery at the beginning of the season and once at the end of the season for winter storage.**
Choose the model features you need to simplify your lawn mowing with Honda’s Twin Blade Advantage. Move Up to the Honda with the best combination of innovative features to meet your needs.
